RENEWED PETITION UNDER 37 CFR 1.137(a)

Attention: Office of Petitions
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In a Decision issued on April 4, 2005, applicant's Petition filed March 10, 2005, which was first treated as a petition to withdraw the holding of abandonment, was dismissed since it lacked the required response to the Office Action of February 6, 2004 and since the docket record referred to in the Petition became separated from the official file before reaching the Petitions Office (see appended transmission receipt showing receipt by the Office of a 9 page transmission the ninth page of which was the accompanying docket page).

This Renewed Petition contains a response to the Office Action of February 6, 2004 and a copy of the missing docket page. Thus, the undersigned again states that, on the basis of a search of the file jacket, unmatched papers and docket records, it was determined that the Office Action of February 6, 2004 was not received by the undersigned law firm despite the fact that the face of the Office Action bears the correct mailing address.

Furthermore, as stated in applicant's original Petition, on December 10, 2004, a Request for Reissuance of Office Action and Contingent Petition was filed in the USPTO by telefax with a Certificate of Mailing. A copy of this Request and delivery acknowledgement are attached

hereto. On December 14, 2004, a Notice of Abandonment was issued, and while the Examiner was subsequently advised by telephone of the filing of this Request which included a contingent petition to revive, however, as of yet, since no action had been taken by the Office, the status of this matter was checked via PAIR, and it was noted that applicant's request still has not been entered into the file of the present application, so that applicant formally petitioned that this application be revived as having become abandoned as a result of unavoidable circumstances. That is, was noted in the December 10th Request, the undersigned first learned that an Office Action had been issued in connection with the above-captioned patent application on February 6, 2004, as a result of a telephone call from the Examiner on December 7, 2004, and its content was still unknown at the time of the original Petition.

The fact that the Office Action was never received is reflected by that appended printout of the docket entries for the subject application which the undersigned printed out from his firm's docketing system at the time he first learned of this situation. As can be seen from this printout, the receipt of an Office Action is not listed, the last entry being the filing of a status inquiry letter with the Office in September of 2003. The "closed by script" designation in the "Action Notes" column is the result of a program that was run when the undersigned's firm converted from one docketing to another docketing system and which automatically closed all open items, the date for action of which had passed. Furthermore, since the initial Office Actions from electrical technology centers routinely take two years or more to be issued*, applicant had no reason to suspect that an Office Action might have been issued. It is also noted that the undersigned has no history of not receiving Office Actions, and in fact, has rarely made use of 37 CFR 1.137(a) in over twenty years of practice before the Office.

Thus, since the Office Action was evidently lost in the mails, applicant's failure to respond to the Office Action of February 6, 2004, was unavoidable due to the failure to receive the Office Action.

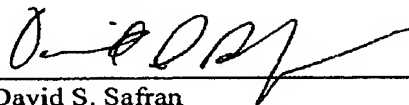

It is understood that the Petition to revive – unavoidable fee of \$250.00 has been charged to the deposit account. However, if this Renewed Petition should be denied, it is contingently requested that this Renewed Petition be treated as containing a petition for revival on the basis

* The March 8, 2005, Office Gazette indicates that the average filing date of applications receiving a first office from Technology Center 2640 during the three months preceding that date was then June 2, 2002.

of unintentional abandonment with the Commissioner being hereby authorized to charge the associated fee or any other fees connected with this filing which may be required now, or credit any overpayment to Deposit Account No. 19-2380(742111-133)

Respectfully submitted,

By: _____

Kathleen M. McManus

REQUEST FOR REISSUANCE OF OFFICE ACTION
AND CONTINGENT PETITION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

As a result of a telephone call from the Examiner December 7, 2004, it was first learned that an Office Action had been issued in connection with the above-captioned patent application on February 5, 2004. However, the indicated Office Action was never received by applicant's attorneys. This fact is reflected by that appended printout of the docket entries for the subject application which the undersigned printed out from his firm's docketing system. As can be seen, the receipt of an Office Action is not listed, the last entry being the filing of a status inquiry letter with the Office in September of 2003. The "closed by script" designation in the "Action Notes" column is the result of a program that was run when the undersigned's firm converted from one docketing to another docketing system and which automatically closed all open items the date for action of which had past.

Thus, since the Office Action was evidently lost in the mails, it is requested that the Office Action of February 5, 2004, be rescinded and reissued with a new period for response. However, should the application be deemed abandoned for failure to respond, it is requested that this be deemed a petition to review due to unavoidable abandonment, the failure to

receive the Office Action having made it unavoidable that a response thereto would not be filed.

If the above circumstances require payment of a fee in order to have the application reinstated and a new Office Action issued, then the Commissioner is hereby authorized to charge any fees connected with this filing which may be required now, or credit any overpayment to Deposit Account No. 19-2380(742111-133)

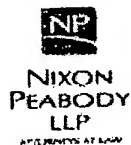

Respectfully submitted,

By: _____
